Steve, thanks for asking.

The only person on the data unit I'd suggest adding is Jeffrey Mosal. Jeff probably won't do much work at this site, but he does support SCRIBE and other SF analytic data processes. It is possible he might be involved. Otherwise I think you/Paula have identified the rest of us quite well...

**Importance:** High

All – Please review this list of personnel who may have occasion to charge to the Upper Animas Mining District site, with an eye toward any omissions. We need to notify any individuals who are now or may in the future work on this site of the correct site charging code, which is 085MTA00. The current code many people are using (085MHR00) is incorrect.

Laura, This would apply to you or your staff only if they were not charging to the removal site codes (e.g., Red & Bonita, Goldking, etc.).

Once we have a complete list, we will send the notice to all affected personnel.

Thanks,

Steve

These are personnel that I think could (should) be charging to UA/CC that should receive the email on Account Charging.

We should also copy the following administrative assistants – Noah Gautam, Louise Jensen, Francie McDonald & Sher Thames (OCPI).

This list is by no means complete but just who I've thought of during the meeting.
